

## Simba Toptilth 6 Metre Cultivator

### £POA

Simba Toptilth 6 metre cultivator. Also separates if required to make two 3 point linkage fully mounted 3 metre cultivators. Works exceptionally well straight ontop of ploughing. Has a front levelling board then 2 rows of heavy duty tines, then a packer roller followed by another 2 rows of heavy duty tines and another packer roller with scrapers. Manual depth adjustment. Lifts onto rear packer roller for headland turning. From our experience depending on soil type and timing of use it can create a seedbed in one pass over ploughing covering large areas very quickly.
